2020 Conference Announcement

Submission guidelines and registration prices information for Speakers and Delegates are posted on the website <https://breastcancer.pathologyconferences.com>
[Online](#) entries will be accepted from March 20, 2020.

[Breast Pathology 2020](#) will be held on July 27-28, 2020 as [Webinar](#). Breast Pathology 2020 aims to discuss the wonders happening in the ever growing field of Pathology. This [conference](#) is an acting stage for business [professionals](#), [Pathologists](#), Directors, academicians, technicians and mainly students to showcase their innovations and new ideas. Breast Pathology 2020 will have more than 50 [International renowned speakers](#) to share their latest research results to participants; the planned program will cover a variety of subjects in the field of Pathology. The conference will also provide an opportunity for interaction and interchange ideas through [posters](#), open discussion and [program](#) project. We strongly believe that the exchange of [knowledge](#) and experience will result in a strong [global collaboration](#) between you and us

*Are you willing to showcase research results and recent objectives achieved? During Breast Pathology 2020, all participants will be able to provide at the registration desk a poster outlining your main results. Why?

Because you will have the chance to present them at the Knowledge exchange session (July 27 forenoon) and meet the authors of the speech you find most interesting during the final [Networking Session!](#)

Breast Pathology 2020 aims to provide our Participants by the following means of information delivery:

- Enhance the depth of learning by explaining new [methods](#) and [techniques](#) and clarify the latest [developments](#) compared to the old methods, which the audience will be able to perform and use the information in their practice.
- Improve the degree of skills of Pathology and different parts of Pathological professionals including students by participation in lectures, workshops, hands-on courses and seminars.
- Improve the awareness regarding latest advancements in Breast Pathology materials, instruments and techniques by demonstration from [specialized](#) professionals in the field.
- Provide information, methodology and strategy related to the management and quality improvement of the [Pathological clinic](#).

Benefits:

- Meet [Experts](#) & Influencers Face to Face
- Networking Opportunities
- [Learning](#) in a New Space
- New Tips & Tactics
